COASTAL LUXE

Coastal Luxe is sophistication under the sun. A refined blend of ivory tones, bold black accents and rich textures brings a high-end feel to relaxed outdoor living. Palm shadows dancing on white walls, warm evenings by the fire and loungers that invite you to linger. It's where minimalism meets elegance, sun-washed, effortless and serene.

INFORMATION

MATERIAL CARE

General

Furniture should always be lifted, not dragged, when being moved.

Teak - Outdoor Tables

Untreated teak naturally changes over time when exposed to outdoor conditions, gradually shifting from a warm honey tone to an elegant silver-grey patina. To help even out this colour transition and speed up the process, our outdoor furniture is treated with an eco-friendly, water-based solution containing silica as the active ingredient.

This treatment gives the furniture a grey tone from the start. The treatment will gradually fade over time after continued exposure to sunlight and water. Splits, cracking and slight movement should be expected as wood is a natural material. Over time, exposure to the elements breaks down the treatment and allows the teak's natural patina to emerge. In some cases, yellowish marks may appear; these are resin or sap which naturally occur in the wood. They are harmless and will fade with continued weather exposure.

Our outdoor teak dining tables come with a bottle of Golden Care Teak Shield, more can be purchased from your Artwood stockist. Golden Care Teak Shield should be applied every three months.

Failure to care for your teak products may void our warranty.

TEAK SHIELD
1 Litre
G60004

Outdoor Wicker

Suitable for both indoor and outdoor use, however not in freezing temperatures. May crack after prolonged exposure to strong sunlight and salt. We recommend regular washing with water and a soft scrubbing brush to remove dirt, dust and salt build up.

Cushions - Outdoor

Cushions should not be left out in humid or wet conditions for prolonged periods of time. If cushions are exposed to wet conditions they need to be dried thoroughly. Over winter months we recommend storing cushions inside or under cover. Failure to dry thoroughly may result in mould or mildew. All covers are removable and washable in cold water; however dry cleaning is recommended. Replacement cushions or covers are available to purchase in the event of damage.

Powder Coated Aluminium - Outdoor

Our powder coated aluminium ranges include Anson (frame only) and Romano (frame only). They require very little maintenance and can be cleaned with a damp cloth as required.

Romano - Sintered Stone

Clean the top with a slightly damp cloth and a mild detergent. Always use coasters under glasses, cups, vases etc. The frame can also be cleaned with a damp cloth as required.

Johnston Imports cannot be held responsible for any damage caused during attempts to clean furniture. We highly recommend that professional cleaners should be consulted. Please contact your local store for warranty terms.
