DIFFERENT WAYS OF LIVING

ARTWOOD

With passion for design and decor Artwood was founded in Sweden in 1969, a family business that still dares to go its own way. After long journeys to the east, they took home exotic materials that today are the basis for Artwood's design.

One could say that they have taken some inspiration from the American East Coast mixed with a sense of the pulse of the city and rural life or a house by the sea. We call it Artwoodstyle. Elements which together form a whole natural sense of quality in the individually decorated home.

Our basic materials are rattan, wood and textiles. As nature has its nuances, our furniture has a soul, every piece of furniture tells its own story. A home reflects one's personality, it should be an inspiration and a place to enjoy and socialise. Each style speaks for itself. Our product range can be varied and mixed to suit your personal style.

HALO ESTABLISHED 1976

The Halo Group, founded by Major Philip Oulton, began life as Halo Antiques in 1976. Major Oulton loved fine furniture and had an eye for attractive antique pieces, which he bought from local people and then sold on within the UK and throughout the world.

His love of beautiful furnishings has been passed onto his sons, Tim and Charlie. Tim, who now runs the company, continues the family tradition of supplying high quality, beautiful furniture inspired by the company's British heritage.

Halo Established 1976 uses the finest materials to develop our distinctive designs in-house, allowing us to create quality furniture that looks good and will also last. All our furniture is hand-crafted making each piece unique. We use traditional techniques and tools which add to the overall quality and durability of our furniture.

Halo has a reputation for designing and manufacturing distinctive, innovative furniture. Influenced by iconic designs of the past and present, the Halo collection is a testimony to timeless elegance.

SOFAS

The sofa is the heart of the home, you want
style and comfort to combine.

SOFAS

LEATHER SOFAS

Using full grain aniline leathers, dyed with translucent soluble dyes and finished by hand. This traditional method of dyeing and finishing retains the unique natural surface and grain of the leather.

A modern outdoor furniture set is displayed on a grey carpeted terrace in front of a building with large glass windows. The set includes a long sofa with white and patterned cushions, a round ottoman, a wicker armchair with a black fringed throw, and a low coffee table. A large white patio umbrella stands over the seating area. A potted tree and a small lantern are also visible.

MATERIAL CARE

General

Furniture should always be lifted not dragged when being moved.

Rattan

Our products are made from various types of rattan material, all from plantations in Indonesia. Kubu, slimlit, lacak and malaka are the materials we generally use. The surface is treated with water based / eco-friendly colouring varnish. Recommended for indoor use, when our rattan planters are left outside with plants, they will breakdown overtime.

Care: Brush off any dirt and wipe with a damp cloth. Colour may fade after prolonged exposure to sunlight.

Upholstered Furniture

Our linen chairs and sofas are created on a solid wood frame, using a sinuous sprung base and the cushions are a foam core, with a luxurious feather and down wrap. Most of our fabrics for upholstered furniture are 100% linen with a Martindale of 20,000. Recommended for indoor use.

Care: Dry cleaning is recommended for linen upholstery. Colour may fade after prolonged exposure to sunlight.

Native Linen Natural and Phoenix Upcycled are machine washable fabrics on cold 30c gentle cycle. A slight colour difference may be visible. Always use a mild detergent to wash fabric covers and ensure it's highly diluted (recommended ratio 1:100). Do not bleach.

Leather Upholstered Furniture

Most of our leather furniture is made from 100% uncorrected aniline leather. It is created on a solid wood frame and its cushions are foam with a fibre wrap. Because leather is a natural product that breathes it must not be exposed to intense sunlight or placed too close to a direct heat source as these could cause it to crack or age prematurely. Avoid sitting on the arms, back or very edge of your leather furniture this may cause distortion or damage.

Be aware that clothing with transferable dyes, such as blue jeans, could transfer the dye onto light coloured leather furniture.

Our leathers have been hand finished to achieve their distinctive look and feel. They will acquire marks over time enhancing their rugged appearance. Recommended for indoor use.

Care: Lightly dust and vacuum on a regular basis. Never use standard cleaning products to remove dust, spills or stains from leather. Use a reputable and recognised leather specialist.

Elmwood & Oak

The elm wood in our collection originates from central Asia and its trunk produces very strong furniture that ages beautifully. A coarse appearance and surface with irregularity in the wood is characteristic of our products. The products have received multiple wax treatments at the time of production. Some cracking may occur. Recommended for indoor use.

Oak is a hard, dense and strong type of wood that is well suited to furniture making. Most of our wood products in oak have received multiple wax treatments at the time of production. Our Denver collection in weathered oak has a water based matte varnish applied to the surface but otherwise is completely untreated. Some cracking may occur. Recommended for indoor use.

Care: We recommend treating the furniture by waxing every 4 - 6 months with a natural wood wax. Left untreated the furniture becomes more delicate and marks may become permanent. Any stains should be wiped off immediately with a damp cloth. Colour may fade after prolonged exposure to sunlight. Temperature and air humidity also affect how the wood behaves. Some cracking may occur.

Java Oak

A tropical fast growing wood that has a grain similar to teak wood but with a softer texture. The surface is treated with water based & eco-friendly colouring varnish. Recommended for indoor use.

Care: Wipe with a damp cloth. Some cracking may occur.

Oak & Birch Veneer

A thin layer of wood is glued onto a wooden fibreboard. The veneer is treated with paint and lacquer in several steps but is still remains natural in appearance. This provides a durable surface that is easy to keep clean.

Care: Wipe with a damp cloth. Do NOT use any strong detergents. Indoor use only.

Lanterns

Our lanterns are an indoor product, but may be used outside. After use, storage inside is recommended.

OUTDOOR MATERIAL CARE

Teak

Teak is a wood which has particularly good properties for production of furniture and interior fittings. It is hard, heavy, elastic and contains oils which gives it great resistance to moisture. We only use wood from Indonesian plantations to make our teak products. These are treated in 3 steps with lacquer to obtain a weathered worn grey colour. The treatments / lacquer will gradually fade over time after continued exposure to sunlight and water. Splits, cracking and slight movement should be expected as timber is a natural product.

Care: All of our outdoor teak dining tables come with a bottle of Golden Care Teak Shield. It can be purchased from your Artwood stockist for other teak products. Leave the furniture to weather for three months, then clean the furniture with a damp cloth, apply the Golden Care Teak Shield with a soft cloth, once dry the furniture may be used again, this process should be repeated every three months.

Failure to care for your teak products may void our warranty.

Metal Frame (Anson)

The metal frame has a powder coated galvanised finish that will require minimal care. We recommend wiping dirt off with a soft cloth. If you scratch the finish you will need to reseal it with a rust protector.

Outdoor Wicker

Maintenance free furniture woven by hand in all weather wicker, (polyethylene), on a rustproof aluminium frame. Recommended for both indoor and outdoor use, however not in freezing temperatures. May crack after prolonged exposure to strong sunlight and salt.

Care: We recommend regular washing with water and a soft scrubbing brush to remove dirt, dust and salt build up.

Cushions - Outdoor

Outdoor cushions are produced with quick dry foam and 100% solution dyed acrylic fabric. Cushions should not be left out in humid or wet conditions for prolonged periods of time. Any time cushions are exposed to wet conditions, they need to be dried thoroughly and over winter months we recommend storing cushions inside or under cover, as failure to dry thoroughly may result in mould or mildew.

Care: All covers are removable and washable, however, dry cleaning is recommended for all fabrics. Replacement cushions or covers are available to purchase in the event of damage.

Concrete

Our concrete furniture is constructed entirely of natural materials, such as granite stone flour, cement and water. The concrete is cast by hand, therefore some variation of thickness, colour and finish may occur. The products are then sealed with a finishing wax to provide protection from stains and moisture. The furniture should be treated with wax every 3 - 6 months depending on use and placement. We DO NOT recommend leaving concrete furniture outside uncovered over the winter months as this may result in cracking and moisture damage.

Care: We recommend spot cleaning with a mild detergent mixed with water. We do not recommend abrasive household cleaning products, which often contain citrus based ingredients that may strip the outer layer of protection. We recommend resealing the furniture with furniture wax every 3-6 months. In between waxing, the products can be polished with oil to refresh the appearance, everyday olive oil would be suitable. Apply a generous amount of oil to saturate the surface and polish in a circular motion until the concrete is uniform and no longer absorbs the oil.

We have two products available for purchase which will help to protect and extend the life of your concrete outdoor furniture.

IMPORTANT: Any concrete product with a lip (Tonga and Dacota Coffee Table / Side Table) need to be kept under cover if being used outside.

Powder Coated Aluminium

Our powder coated aluminium range includes Estepona. These products are constructed of aluminium, then powder coated for protection. They require very little maintenance and can be cleaned with a damp cloth as required, during winter months these products should be stored in a frost free environment. If you scratch the finish you will need to reseal it with a rust protector.

Johnston Imports cannot be held responsible for any damage caused during attempts to clean furniture. We highly recommend that professional cleaners should be consulted. Please contact your local store for warranty terms.
